Lists

Links

Tables

# Sectioning

# Sectioning

Sectional commands have the following two forms:

`\section {}` Numbered sections.

`\section *{}` Unnumbered sections.

# Types of Lists

There are three types of lists in  $\text{\LaTeX}$ :

- ▶ `itemize.`
- ▶ `enumerate.`
- ▶ `description.`

# Types of Lists

Syntax:

```
\begin{itemize}  
    \item Naruto Uzumaki.  
    \item Sakura  
    \item Sasuke Uchiha.  
\end{itemize}
```

# Links

Various hyperref coloring options are:

`linkcolor`

`urlcolor`

`citecolor`

`filecolor`

`linkbordercolor`

`urlbordercolor`

`citebordercolor`

# General rules to typeset tables

1. Never use vertical lines.
2. Avoid double lines.
3. Place the units in the headings.
4. Do not use quotation marks to repeat the content of the cells.
